

2024 PREC Summer Computational

Molecular Science Program

Spend nine weeks this summer conducting computational molecular science research at Cal State LA – and earn a \$5,400 stipend!

ACTIVITIES

- Hands-on molecular modeling
- Independent research projects
- Practical high performance computing
- Mentoring and networking events
- Community building excursions
- Scientific conference participation

Partnership for Research and Education in Chemistry
PATHWAY TO DIVERSITY PROGRAM

Online Application Dates:
January 1 - March 29, 2024

Program Dates:
June 10 - August 9, 2024
